PROFILE

A passionate Computer Science student with strong fundamentals in programming, data structures, and problem-solving. Interested in building real-world applications and continuously learning new technologies. Looking for opportunities to apply my skills and grow in a professional environment.

PROJECTS

Task Manager / To-Do App
Responsive app with local storage or backend to store user tasks.

Library Management System
Python + MySQL program to manage book issues, returns, and student records.

Weather Forecast App (API Based)
Uses OpenWeather API to fetch and display real-time weather.
